**All-New  
Canopy**

✓ The bed off Utility Canopy only adds on average c.50kgs to the nett weight of the pickup thanks to its high strength alloy construction.

✓ The bed off Utility Canopy gives on average 50-60% more flat floor area when compared to the standard truck bed.

✓ Aluminium sub-frame chassis and aluminium extrusion floor to ensure it's high quality.

✓ Huge side and rear access doors with central locking to all doors.

✓ Utility Professional comes with 3x standard LED interior lights. Additional lighting can be ordered on request.

✓ Utility Professional comes with a high mounting rear LED brake light proven to reduce rear end shunts.

✓ LED rear tail lights incorporating built in twin fog lights and twin reverse lights – Suitable for RHD or LHD vehicles.

✓ An optional roof rack is available for the Utility top. The utility top is also compatible with other roof carrying systems including the Safestow system.

✓ Stabilus gas struts allow you to easily operate all access doors. Locking struts can be fitted to all doors if required.

✓ Pro//Top offers a genuine 3-year warranty on manufacturing defect on all products.

✓ Pro//Top has obtained ABE, issued by the German Federal Authority for Road Transport on the certification of TÜV Rhenland. IVA approval has also been granted.
